- Operation interface editable, graphical interface support video, images, graphics, text, 3D button.
- With standby screen protection function; electronic calendar time display function.
- With touch screen coordinates correction function.
- An external DC12V power supply.

### Specifications

The parameter name	LT-7000C
Display mode	65K color TFT LCD
Touch screen resolution	640X480 pixels
Control mode	Wired
The dynamic power consumption	700-1.5A/12V
Touch screen size	6.4"/16.32cmdiagonal
Scope of application	Can be connected to CR-PGM II , Touch-AV control system
Communication interface	CR-NET
Memory	32M
Control mode	Wired control
Weight	About 468g
External power supply	Host 24VDC power supply
Battery specifications	External power supply
