

INTRODUCING

Writable Projection Screen

Remaco WPS (Writable Projection Screen) series is a combination of projection and dry-erase surface. Specially coated matte white surface allows projection with minimum reflection or glare. In addition, it can be cleaned easily without leaving any residue. Ideal for use with interactive short-throw projector. Available in 80", 90", 100" and 109" diagonal, 16:10 format. Other sizes can be customized.

Features

- All in one matte white projection surface and whiteboard surface
- Slim thin-bezel design
- Easy to clean, no marker residue
- Simple installation

Model	Diagonal	Viewing Area
